

## AFTER SCHOOL PROGRAMS 2023-24

### Schoolhouse Kitchen + Studio

has been providing food literacy programming for over 8 years.

From super fun, hands-on cooking classes to school garden programs and family dinners, Schoolhouse loves creating space for kids and their communities to learn more about Good Food.

## GOOD FOOD EXPERIENCE

Students will learn practical and impressive culinary skills from how to prepare colorful veggies for a stir fry to how to make homemade pasta from scratch. While cooking, our enthusiastic instructors weave lessons about everything from biodiversity to food culture through the conversation. Our kid tested recipes and techniques are designed to inspire a lifetime of fun in the kitchen and are shared with families to continue the learning at home.

## HOMESTEADING

Inspired by our popular Homesteading Summer Camps, this after school program is like home economics for kids. Part cooking and part crafting, kids will explore culinary arts (making bread and homemade butter!) and crafts like sewing, bookbinding and seed starting to help kids build on useful life skills. Each week, students learn a new skill and take home their project with instructions to continue the learning at home.
